

# Parallel Architectures and Systems

Homework 0: Introduce yourself

Dr. Edwin Sha

Due Date: **12Noon, Tuesday, Jan. 19, 2010**

You should go to look at the my web page: <http://www.utdallas.edu/~edsha> and look for the course web page. And then book marked it.

Because I would like to know you better and later will communicate with you quite often, I need your information. You must send an email message **BEFORE the due date** to **pdcs@utdallas.edu**. Yes, the email address is pdcs@utdallas.edu for this assignment. Put its SUBJECT to be **“Dr. Sha’s PARALLEL class.”** containing the following information. Please just use a simple **text** format for your email message. Do not use any word processing tool such as WORD for this assignment.

1. Name:
2. Email Address that you mostly use here? What is your UTD email address?
3. What is your major here in UTD? Are you a Master or Ph.D. student? When did you join UTD? If you are a Master student, when do you plan to graduate?
4. How much do you know about algorithms, OS and computer architectures? Did you take any related courses? Have you taken Dr. Sha’s course before?
5. Introduce yourself to me: (education, working experience, interests, etc. ANYTHING you like to say about you).

I also suggest you to make your own web page if you do not have one.
