

# Information Security

Homework 0: Introduce yourself

Dr. Edwin Sha

Due Date: **1pm, Jan. 24, 2012**

You should go to look at the my web page: <http://www.utdallas.edu/~edsha> and look for the course web page. And then book marked it.

Because I would like to know you better and later will communicate with you quite often, I would like to have your information. Turn in a hard copy in class on the due date. Do not give me a handwritten report. Use any editor and print out a hard copy.

Hope that we can have a fun class in this semester.

1. Name:
2. Email Address that you mostly use here? What is your UTD email address.
3. Which Department and track are you with in UTD and are you a Master or Ph.D. student?  
When did you join UTD?
4. How much do you know about OS, networking, and cryptography? Did you take any related courses?
5. Introduce yourself to me: (education, working experience, interests, etc. ANYTHING you like to say about you).
