

# Ackerman Center 2014 Teacher Workshop

July 30 –31, 2014

*The Holocaust and World War II*, presented by the Ackerman Center for Holocaust Studies at UT Dallas, is a comprehensive two day exploration into teaching strategies for Middle and High Schools educators. Bringing together experts in the field, this unique learning experience affords teachers the opportunity to gain innovative classroom tools and skills for teaching the Holocaust through the Humanities, English, Social Studies, History, and Geography, as well as providing an opportunity to interface with area educators who are currently implementing these strategies with their students. Sessions will focus on key historical issues relating to the history of anti-Semitism, critical nineteenth and twentieth-century thought leading up to the Nazi takeover, and the seminal events of the war. Teachers will be provided with a selection of seminars pertaining to their field including the use of multi-media, film, and database resources.

We invite you to participate in this Teacher Institute which offers **16 hours of Continuing Education credit** and is being provided to educators in the greater Dallas area **FREE** of charge thanks to a generous endowment to the Ackerman Center.
