Curriculum
The Master of Science in Information Technology and Management (MS ITM) degree program consists of basic business courses, IT foundation courses, IT elective courses and other electives. The business courses give students a better understanding of issues that occur at the interface between IT and business. The IT foundation courses cover the essentials of IT. The IT elective courses provide in-depth knowledge of technology and technology management issues. In addition, students may select approved electives that maximize their goals.

The features that set the UT Dallas MS ITM program apart are the breadth and depth of the curriculum and its flexibility. The curriculum offers electives in relevant IT topics, and many of these courses are offered in the evening. Also, many courses are offered online to provide maximum flexibility. Since there is no difference in content between online and on-campus classes, students can mix online and on-campus courses to satisfy the degree requirements.

The program also offers opportunities for students with special interests to concentrate in a specific track within the IT area, such as business intelligence and analytics, enterprise systems, cybersecurity management, IT consulting and services management or healthcare systems.

This is a STEM designated program.

Career Options
Graduates of the program seek positions such as: IT manager, information systems analyst, and other IT positions in various industries.

Degree Program
The MS in Information Technology and Management requires the completion of a minimum of 36 semester credit hours. For complete admission and degree requirements, view the Graduate Catalog at catalog.utdallas.edu.
The University of Texas at Dallas Naveen Jindal School of Management (JSOM) is the largest of UT Dallas’ eight schools, with an enrollment of about 9,100, more than half of whom are graduate students. The school provides outstanding tuition value, a wide variety of classes on campus and online, flexible scheduling and a convenient location. The Jindal School of Management keeps abreast of business needs as an essential component in providing students with rigorous training and relevant skills for professional success. Programs are offered at the undergraduate, MBA, master’s, PhD and executive levels. Programs are organized around six broad topics of business specialization:

- Accounting
- Finance and Managerial Economics
- Information Systems
- Marketing
- Operations Management
- Organizations, Strategy and International Management

A broad array of internship and scholarship opportunities is made available to Jindal School students each academic year. The school operates its own Career Management Center, which students may use in addition to the campus-wide UT Dallas Career Center. More than 50 student organizations are based in the school. Most of these focus on career development in specific fields and build networking, internship and employment opportunities. U.S. News & World Report (2019) ranks the school’s Full-Time MBA program at No. 40 (tied) in the nation and tied for No. 19 among public university programs in the United States. In the same ranking, the publication places the Professional (Part-Time) MBA at No. 20 in the nation.

Faculty
The Jindal School offers a variety of degree options at the undergraduate, graduate, master’s and PhD levels. The school’s relevant, rigorous curriculums were developed by exemplary teachers and leading researchers. The outstanding faculty members bring a wealth of intellectual capital, and they often come because UT Dallas enthusiastically encourages and supports scholarly inquiry and innovative teaching. New discoveries, along with faculty members’ expertise, inform the academic programs at every level.

Location
The Jindal School benefits from its location in the Dallas-Fort Worth area, a center of industry and trade that places a high value on ingenuity and entrepreneurship. *Foreign Policy* magazine named Dallas one of only five U.S. cities in the top 25 in its projection of the "most dynamic cities in the world in 2025."
