Your students are one of a kind, and we know it.

That’s why we’ve developed a special guide that will include only the information most important to them. In a few quick steps, they’ll have a customized information pack that details how UT Dallas can be the perfect fit.

Here’s how it works:

• They pick the academic areas they’re interested in studying.
• They add things like housing, athletics and activities.
• They select a photo theme — from research, to campus scenes, to life in Dallas.
• They print their guide and share it in person or by email with family and friends.

Send them to utdallas.edu/guide today to find out how they can create their own guide — and create their future at UT Dallas.
A Welcome to Counselors from President Richard Benson

UT DALLAS IS AN ENERGETIC, TOP-TIER NATIONAL RESEARCH INSTITUTION
that attracts top students from across the nation. This publication provides a glimpse of the many pathways to University admissions as well as the available student support services.

If knowledge is the currency of the future, then productive careers and lives well-lived will depend on innovative education and research. We think deeply about such matters at UT Dallas and seek to create opportunities in newly evolving interdisciplinary programs and entrepreneurial pursuits.

We want to help our students to excel. That’s why we provide an array of tools and programs focused on academic success:

• The Student Success Center (SSC) provides academic counseling and guidance for all majors. The center offers peer-led team learning, supplemental instruction, individualized tutoring and assistance with study strategies, workshops and courses. Both live and online resources are available for science, technology, engineering and mathematics (STEM) courses. A Math Lab with peer and professional tutors and a Writing Center provide customized assistance.

• State-of-the art residence halls and Living Learning Communities that allow students in the same major or academic interest to live and study together.

Many students from diverse backgrounds are choosing to be a part of our rapidly growing research institution that is ideally suited for exploring the disciplines of science, technology, health care, business and the arts.

I encourage you and your students to visit UT Dallas, located in one of the nation’s top metropolitan areas. We value our partnership with you in supporting the talented students about to embark on their next important academic journey.

Please contact us if you have any questions or if you wish to provide feedback on this guidebook.

Sincerely,

Dr. Richard Benson
President
Eugene McDermott Distinguished University Chair of Leadership
At UT Dallas, students from all walks of life have the opportunity to reach new heights. A few graduates reflect on what attracted them to the University and how their lives are enriched thanks to their experiences here.

**Recent Graduates Reflect on Their Experiences**

“UT Dallas helped me cultivate my professional growth and gave me the opportunity to develop leadership experience, career-focused skills and prestigious networking opportunities. Beyond the expansive resources and rich academics, UTD has been a close-knit community of individuals who have always pushed me to be my best. *This school has undoubtedly had a tremendous impact on the person I am today,* and for that I am forever grateful.”

— Jens Stamenov BS’18
Information Technology and Systems Graduate

“UT Dallas not only provided me a home, but a catalyst to a future that challenges me and gives me purpose. *If it were not for the opportunities from the faculty and staff, I would not have been able to, work for the President of the United States, let alone Google, during my four years at UT Dallas.* The school gave me irreplaceable lifelong relationships and memories that will never fade. Coming to UT Dallas has been one of the best decisions that I’ve ever made because I got to truly discover my interests, and now get to live out my dreams in Washington, D.C. as a political consultant.”

— Rebecca Tjahja BS’18
Finance Graduate
“As an international student, UT Dallas has given me a home, community and family for four years and has set me up for success in the health care field and life. Between athletics, natural sciences and mathematics peers, research, student organizations, volunteering opportunities and professors, I have found life-long relationships that fostered my growth as a person. This school has challenged me in ways I never imagined and gave me a prestigious education. What sets UT Dallas apart is that it manages to be a top-tier school without treating its students like just another number. Choosing UT Dallas was one of the best decisions I have ever made, I am proud to be a Comet.”

— STEFANIE POLDERMAN BS’18
Biochemistry Graduate
Former Comet Softball Player

“I doubt that many other universities invest in the success of their students to the same level as UT Dallas. I have been able to start a research project, establish a student organization, participate in club sports and complete a senior capstone project. At the same time, I’ve seen numerous professors invest their time to advise students. **My mentors in the Hobson Wildenthal Honors College and the Jonsson School provided me with crucial advice that helped me get where I am today, poised to start a PhD in electrical and computer engineering at Purdue University.** The ease with which students can find funding and mentoring at UT Dallas makes for a transformative undergraduate experience.”

— HANS AJIEREN BS’18
Electrical Engineering Graduate

This guidebook is intended as a resource for counselors and prospective students. While the information contained in this book was believed accurate at the time of publication, please check for updates at our website, utdallas.edu, or by calling the Office of Admission and Enrollment at 972-883-2270.
The University of Texas at Dallas, in the heart of North Texas, is an innovative institution made up of eight schools.

UT Dallas has grown since its founding in 1969 to include approximately 140 degree programs, with cutting-edge curricula serving a variety of undergraduate and graduate student interests. The University is committed to providing some of the state’s most-lauded science and engineering programs; it also has gained prominence in a breadth of educational paths, from criminology to biomedical engineering to arts and technology and business.

The wealth of learning resources available to UT Dallas students is the result of a concentrated effort to attract the top minds on both sides of the classroom. Joining the faculty’s Nobel laureate and National Academies members are more than 570 tenured and tenure-track professors hailing from the world’s best colleges, including: Harvard, MIT, Cambridge and Columbia University. In addition, UT Dallas is home to more than 40 centers, labs and institutes that facilitate research and provide valuable opportunities for hands-on learning.

Students, meanwhile, arrive at UT Dallas well-prepared to succeed in higher education. In 2017, 36 percent of freshmen ranked in the top 10 percent of their high school class, and 64 percent ranked in the top 25 percent.

The University’s ability to attract and retain excellent students has propelled UT Dallas into national prominence within a few short years. Kiplinger’s Personal Finance Magazine and The Princeton Review have ranked UT Dallas among their best values for public colleges nationally, and Times Higher Education consistently ranks UT Dallas among the top universities in the United States under 50 years of age. U.S. News & World Report placed UT Dallas among the top 20 universities in the country with the fewest students carrying debt after graduation.

An institution of extraordinary quality and excellence, The University of Texas at Dallas produces successful graduates who are prepared to take leadership roles in science, business, research, the arts and the global community.
**AT A GLANCE**

- Total enrollment: 27,642
- Class of 2021: 3,177 students

**Academic Programs**
- 140+ academic programs
- 300+ campus organizations

**Student/Faculty Ratio**
- 23:1

**National Merit Scholars**

**Top Undergraduate Majors**
- Computer Science
- Biology
- Arts and Technology
- Mechanical Engineering
- Accounting
- Neuroscience
- Finance
- Business Administration
- Information Technology and Systems
- Healthcare Studies
- Electrical Engineering
- Biomedical Engineering

**Top Graduate Programs**

- Information Technology and Management
- Business Administration
- Business Analytics
- Accounting
- Electrical Engineering
- Supply Chain Management
- Finance
- Communication Disorders
- Management Science
- Mechanical Engineering
- Marketing
- Applied Cognition and Neuroscience

**Financial Aid**
- Approximately 70% of undergraduates receive need-based aid, merit scholarships or other financial aid.

**Times Higher Education**
- Ranks UT Dallas among the top universities in the United States less than 50 years old.

**Best Value Public Colleges Rankings**
- Top 50 in-state
- #4 in-state
- #61 in the nation

**DISTINCTIONS**

- U.S. News & World Report
- Top 20 universities in the country with the fewest students carrying debt
- Graduate Programs:
  - Audiology, #4
  - Online Graduate Business Programs, #4
  - Online MBA Program, #6
  - Communication Disorders, #12
  - Criminology, #15
  - Information Systems, #16
  - Professional MBA, #20

- Students who go through the Health Professions Evaluation process are admitted to medical schools at a rate of 72% versus a national admission rate of 40%.

- 105,000 alumni have earned over 116,000 degrees from UT Dallas.

- Mid 50% SAT Range: 1220-1430
- Mid 50% ACT Range: 26-32

- 92% of degree-seeking undergraduate students listed Texas as their residence in fall 2017.

- 4% out of state
- 4% international
We want to help you assist your students.

To apply, most prospective undergraduates will need to do the following:

- Complete and submit an application at applytexas.org.
- An official transcript is required from each high school and college attended. The transcript must be sent electronically by the institution or mailed in a sealed envelope with the school seal or signature from the issuing institution on the back side of the envelope and sent to:

  The University of Texas at Dallas  
  Office of Admission and Enrollment  
  800 W Campbell Rd  
  Richardson TX 75080-3021

- Send official SAT or ACT scores either via the testing agency or listed on the official transcript. When sending scores from the testing agency, use the following:
  
  UT Dallas SAT code: 6897  
  UT Dallas ACT code: 4243

- Submit a $50 application fee. This fee may be waived if students attend Scholars’ Day or Preview Friday events. See utdallas.edu/enroll/events or the inside back cover of this guide.

Applicants must have graduated from an accredited high school or satisfied equal requirements. Please see more detailed criteria for each category of prospective student.

Students who do not meet the criteria for freshman admission are encouraged to look at the Comet Connection program, described in the transfer admission section on pages 6 and 7.
Freshman Admission Criteria

Applicants will be evaluated for admission as a freshman if the students’ first enrollment at a college or university, excluding the summer following high school graduation, will occur at UT Dallas within two years of graduating from high school. Applicants will still be considered a freshman if they earn college credit before high school graduation.

Admission Under the Top 10 Percent Rule

As required by Texas law, prospective students who successfully earn the distinguished level of achievement from an accredited Texas high school and are among the top 10 percent of their class are automatically admitted to the University as first-time freshmen. Applicants must have graduated from high school during one of the two school years preceding the academic year for which they seek admission as first-time freshmen and have not attempted any higher education credits since graduation from high school. Please see the information about recommended high school curriculum online at utdallas.edu/freshman-admission-reqs.

Students admitted to the University will be enrolled in the degree program requested in their application, subject to academic requirements for specific degree programs and enrollment capacities. Students who cannot be enrolled in their first choice of major will be offered enrollment as outlined in their acceptance letter.

Admission Review

Applicants are reviewed individually and holistically to ensure consideration is given to factors included in an applicant’s composite achievement profile, including:

• Overall grades in academic coursework and trends in achievement.
• Strength of high school curriculum, including level of rigor (AP, IB, dual credit).
• High school rank and GPA.
• SAT or ACT test scores.
• Ability to be successful in intended major.
• Optional essay: Topic A, B or C (only one).
• Optional résumé.

Written recommendations (limit 3) are suggested but not required and can be very helpful to students seeking admission and will be used for scholarship consideration.

Applicants must have graduated from an accredited high school or satisfied equal requirements, and should have completed the high school requirements listed online at utdallas.edu/admission-requirements.
Transfer Admission Criteria

Assured Admission
All transfer applicants must be in good academic standing from the last college attended.

Applicants are eligible for assured transfer admission by meeting all of the following criteria:

1. 42+ transferable credit hours.
   - A minimum cumulative GPA of 3.0 on a 4.0 scale.
   - No more than 90 attempted hours.
   or
2. Comet Connection member and a completed AA/AS/AAT with a minimum cumulative GPA of 3.0 on a 4.0 scale.
   or
3. Qualify for admission under Section 51.8035 of the Texas Education Code.
   - For consideration, the applicant must submit to UT Dallas, by the application deadline, information that “expressly and clearly” claims entitlement of admission under this section.
   For additional information, visit catalog.utdallas.edu.

The latest information about transfer admission can be found at utdallas.edu/enroll/transfer/admission-requirements.

Transfer Credit Guidelines
UT Dallas operates on a semester system and all transfer credits will be converted to semester hours. For information on the transferability of courses, go to utdallas.edu/enroll/transfer and select Transfer Credit. Further information is available regarding program prerequisites and curricula appropriate to the various UT Dallas majors through the UT Dallas catalog at catalog.utdallas.edu.

Credits for College Level Examination Program (CLEP), Advanced Placement (AP), International Baccalaureate (IB) and General Certificate of Education Advanced Level (GCE A level) exam certificates will be awarded after admission and are not considered for the purpose of transfer admission decisions. Military veterans who enroll at UT Dallas and meet certain requirements are eligible to receive undergraduate college credit for the time they spent in the service.
What is the Comet Connection?

The Comet Connection program is specifically for students who attend a Texas community college and would like to complete their degree at The University of Texas at Dallas. The program invites transfer students to become acquainted with the many services available to UT Dallas students. Comet Connection members build a close association with UT Dallas.

In addition to invitations to exclusive Comet Connection events, participants receive:

- **Tuition Savings** through the UT Dallas Guaranteed Tuition Plan (page 42).
- **Deferred Admission** of up to 12 months.
- **Degree Completion** by transferring UT Dallas course credit back to their community colleges toward an associate degree.
- **Early Advice** through one-on-one meetings with UT Dallas academic advisors.
- **Career Preparation** with access to health professions and pre-law advising centers.
- **Borrowing Privileges** through the TexShare program at the UT Dallas McDermott Library.
- **Student Discounts** for campus and athletic events with the Comet Connection student rate.

You can learn more about the Comet Connection by contacting our admissions counselors at 972-883-2270, 1-800-889-2443 or visiting the Comet Connection website at utdallas.edu/connect.
More than 6,000 international students representing about 100 countries call UT Dallas home. The International Center provides cultural, social and transitional programs to help international students succeed academically, personally and professionally. Programs include cultural festivals, English support, local trips, spouse and family events and American culture exposure.

**International Student Application Fees, Deadlines and Requirements for Admission to Review:**

- The application fee is $50 if it is submitted before the regular application deadline. If the application is submitted after the regular application deadline, the application fee is $125.

- Applicants with international academic documents will be assessed a one-time international credential evaluation fee of $50.

- All supporting documents and transcripts, with the exception of courses in progress, must be postmarked by the application deadline.

- International applicants must submit proof of English proficiency by achieving a minimum score of 550 on the paper-based TOEFL, a minimum score of 80 on the Internet TOEFL, 6.5 IELTS, 67 PTE Academic, or a passing grade in level 112 of English from the ELS Language Centers.

- Students who do not enroll or defer by the census day of the original application term of admission must complete a new application to be considered for a new term.

**F Visa Types Must Also:**

- Submit documents to receive an I-20 from the International Student Services Office (ISSO).

**Special Information for International Students**

All International Visa Types Must:

- Register for the appropriate orientation.
- Apply for on-campus housing, if needed.
- Complete the tuberculosis test and submit results to the Student Health Center.
- If under the age of 22, submit meningitis vaccine requirement form to the Registrar’s Office.
Application Guidelines for Students

Your students’ applications are important to us so please share the following information with them.

- The online application is at applytexas.org.
- It can take four to six weeks to process a complete application file, including all required supporting documents, for an admission decision.
- When a student’s application has been verified, they will receive an application acknowledgment email containing their UTD-ID. They will receive a second email to activate their UTD account containing their NET-ID and password information.
- Once a NET-ID and password have been created, the student can access UT Dallas’ secure portal, Galaxy, and gain up-to-date application status information.
- Students should consistently use their full name when applying and on all documents submitted. Inconsistencies may cause delays in processing documents.
- When mailing supporting documentation, students should include their full name, birth date and/or UTD-ID or application ID on all documents submitted.
- Students may track the progress of their application online.

Application Fees* and Deadlines for U.S. Citizens and Permanent Residents

- The application fee is $50 if the application is submitted on or before the regular application deadline.
- If the application is submitted after the deadline, the application fee is $125.
- All supporting documents, including official transcripts, must be postmarked by the deadline.
- Students who do not enroll or defer by the census day of the term of their original admission must complete a new application.

UT Dallas encourages all students to complete their application as early as possible.

The last day to register for classes coincides with the last day to add classes. This information is available at utdallas.edu/academiccalendar.

* All fees are nonrefundable.
Application Processing

The Office of Admission and Enrollment processes all applications and associated materials. Once an applicant has submitted a complete application with all required documents, an admission decision can be made. Students are encouraged to apply early. Complete application packets are processed in the order received.

Send application documents to:
The University of Texas at Dallas
The Office of Admission and Enrollment
800 W Campbell Rd
Richardson TX 75080-3021

Students should include their full name, birth date and/or UTD-ID or application ID on all documents.
After Admission: A Checklist for Admitted Students

Freshmen
- Accept offer of admission.
- Register for Freshman Orientation.
- Apply for financial aid—UT Dallas school code: 009741.
- Apply for on-campus housing, if desired.
- Send official placement test scores—Advanced Placement, International Baccalaureate, College Level Examination Program and General Certificate of Education Advanced level exam certificate, if eligible.
- All entering students must receive a vaccination or booster against bacterial meningitis. For more information, visit utdallas.edu/vaccine.
- Take ALEKS Math Placement Assessment Exam: UT Dallas uses the ALEKS Assessment to optimize the placement of all students in their first math course. The assessment is an open format that does not use multiple choice questions. All incoming first-time freshmen to UT Dallas are required to take the ALEKS Assessment. The ALEKS Assessment module at UT Dallas costs $40 per student. For more information about ALEKS, visit utdallas.edu/aleks.

Transfer Students
- Accept offer of admission.
- Register for Transfer Student Orientation.
- Apply for financial aid—UT Dallas school code: 009741.
- Apply for on-campus housing, if desired.
- Review information on transfer course credit.
- Send official placement test scores—Advanced Placement, International Baccalaureate, College Level Examination Program and GCE A levels exam certificate, if eligible.
- All entering students must receive a vaccination or booster against bacterial meningitis. Students must be 22 or older by first day of class to be exempt from the vaccination requirement. For more information, visit utdallas.edu/vaccine.

Final Requirements for Some Undergraduate Students
- Texas Higher Education Assessment/Texas Success Initiative (THEA/TSI): The Texas Success Initiative (TSI) requires students to be assessed in reading, writing and math skills prior to enrolling in college. Those who are not TSI exempt will be required to obtain passing scores on a TSI Assessment. Students can be exempted from TSI through a variety of means. A full list of exemptions can be found at utdallas.edu/tsie.

International Students
All International Visa Types:
- Register for the appropriate orientation at utdallas.edu/icp/iso.
- Review the New International Student Checklist at utdallas.edu/icp/new-student-checklist.
- Apply for on-campus housing, if desired.
- Submit tuberculosis test results to the Student Health Center.
- Submit a request for airport transportation, if needed.
- If under the age of 22, submit meningitis vaccine requirement form to the Office of the Registrar.

Requirements for F-1 Visa Types Only:
- Submit documents to receive an I-20 from the International Student Services Office.
- For more information visit utdallas.edu/ isso/f1-apply.
After Admission: New Student Programs

Orbit
Orbit helps new Comets engage, explore and discover pathways to success during their first year at UT Dallas.

Students in Orbit attend seminar courses and participate in activities that specifically address opportunities available to them. From peer mentoring programs to first-year seminars to a common reading program, Orbit engages a variety of high-impact practices to improve student success through their first year at UT Dallas.

In their freshman year, students will take part in the freshman seminar, taught with the support of First Year Leaders (FYLs), which assists first-time-in-college students navigating the college experience. Students will be introduced to valuable support services as well as engagement opportunities on campus.

FYLs also provide one-on-one mentoring sessions outside of the classroom and help students transition into college life.

For transfer students, Orbit includes a transfer seminar and mentor program. The transfer seminar assists first-time-at-UT-Dallas transfer students with navigating resources, introducing them to support services and encouraging them to connect through engagement opportunities.

Transfer peer mentors offer one-on-one peer mentoring for transfer students who are new to UT Dallas.

utdallas.edu/orbit

Comets to the Core
Comets to the Core is a co-curricular requirement for all incoming freshmen. The requirement is a project to be completed within the first six weeks of enrollment and again in the fall semester of each students’ junior year. Each student will be placed in a group with four other incoming students from different majors. The groups will work together using each members’ unique skill sets to propose a multi-faceted solution to a problem selected by UT Dallas students, faculty and staff. For comparison, transfer students are required to complete the project during the first six weeks of their first semester at UT Dallas.

utdallas.edu/core
The University of Texas at Dallas offers approximately 140 academic programs across its eight schools.

School of Arts and Humanities

972-883-6780 | ah.utdallas.edu

The School of Arts and Humanities shapes global citizens who are critical thinkers, imaginative creators and innovative problem solvers. The school promotes education that seeks and makes connections between critical and creative thought, theory and practice, and blends arts and humanities with other fields. Programs support rigorous analysis and creative interpretation, contextual criticism and artistic expression that builds bridges between traditional and emerging paths to knowledge, thinking and doing.

“Being a literature major has given me the opportunity to explore many aspects of the humanities. Not only do I get to read and analyze great pieces of literature, I can also study art history, be a part of theatre productions and learn about anything else that catches my interest. This major has given me a much deeper appreciation for the humanities and has opened doors to so many opportunities that I had never previously considered. I am forever grateful for the School of Arts and Humanities in my growth as an individual.”

— OSINACHI OSUAGWU

Literature Major
ATEC curriculum provides an exposure to arts, science, technology, history, design, criticism, new knowledge creation and complex understandings. At each level, students are encouraged to investigate the possibilities of emergence and assess the cultural impact of new technologies.

At the undergraduate level, ATEC students choose from the following pathways:

- Animation
- Critical Media Studies
- Design and Production
- Games

"ATEC allows me to pursue my passion, not just my degree. The classes are fun and engaging, and motivated students will find plenty of opportunities to interact and work alongside faculty, many of whom are pioneers in their field. Look no further than ATEC for a school that blends art and design instruction with cutting-edge technology. Seriously, there’s no place like UT Dallas."

– JOEL EWING
Arts, Technology, and Emerging Communication Major
National Merit Scholar, Clark Summer Researcher, UX Designer for the ArtSciLab at ATEC
School of Behavioral and Brain Sciences

972-883-2355 | bbs.utdallas.edu

Students, faculty and staff members of the School of Behavioral and Brain Sciences (BBS) are committed to understanding the intersection of mind, brain and behavior. Their work is aimed at enhancing the health, education and quality of life of children and families, and creating and implementing technology that repairs and strengthens human abilities. The school provides innovative student training and research, offering an array of programs to develop creative thinkers for exciting careers. BBS offers training from the bachelor's degree to the PhD level—preparing students to become researchers, clinicians, social service professionals and corporate leaders.

"My experience with the School of Behavioral and Brain Sciences has been nothing less than incredible. The environment includes passionate professors and eager classmates who keep me motivated day in and day out. I am fortunate to interact with these professors who are excited about their studies and who have impacted my future. I am encouraged by being a part of BBS and feel I am in the perfect environment to succeed."

School of Economic, Political and Policy Sciences
972-883-2935 | epps.utdallas.edu

Every new generation inherits an increasingly complex world, which prompts a need for new thinking about public policies that impact people’s lives. The School of Economic, Political and Policy Sciences (EPPS) offers degrees in fields involving governance, like political science, public policy, criminology, public and nonprofit management, degrees that focus on human interaction with economics and sociology, and degrees that emphasize patterns of human activities with geospatial information sciences. EPPS emphasizes quantitative skills such as statistics, data analytics and spatial analysis that put our graduates in strong positions in competitive job markets. Our programs are also interdisciplinary, because the distinctions between academic disciplines do not always hold in the real world. EPPS prepares students for careers in government, nonprofits and the private sector, enabling our graduates to make a real difference in the world of today and tomorrow.

*S A Dual Masters Degree in International Political Economy is also available and features one year at UT Dallas and one year at the University of Marburg in Germany.

“EPPS has given me the opportunity to take classes on topics I’ve always been interested in, but never had a chance to learn about formally. Class offerings range from Politics of International Finance to Crime in Latin America to Economics of Health. My professors are on the cutting edge of their fields, and it’s incredible to be learning from such prominent academics! When I took my first political economy class, I knew I chose the right major, and I know UTD will prepare me for whatever career I will pursue.”

RAGYA KAUL

* MSCS features seven tracks from which to choose: data sciences, information assurance, intelligent systems, interactive computing, networks and telecommunications, systems and traditional computer science.

** MSEE features five tracks from which to choose: circuits, computing systems, devices, power electronics and energy systems and signals and systems.

*** Systems Engineering and Management is a joint program with the Naveen Jindal School of Management.

**** Executive Education programs are generally aimed at professionals pursuing advanced degrees in their area of interest or expertise. Some programs include weekend formats and cohort groups. Tuition costs may vary from non-executive programs.

"ECS is an amazing school with challenging courses, inspiring lectures and student organizations that enhanced my leadership and technical skills. UT Dallas as a whole is full of passionate professors, helpful faculty and people who make this experience special. Everything I have learned inspired me to serve as president of the Society of Hispanic Professional Engineers and all I learned was essential to the engineering practicum internship I earned at Google."

– CARLOS ESPONDA

School of Interdisciplinary Studies

972-883-2323 | is.utdallas.edu

The Interdisciplinary Studies programs provide students with a broader learning experience and a wider perspective. Because of the individualized focus and flexibility, the programs are appropriate for both students preparing to enter the workplace and those planning to continue their studies. Most of all, these programs serve those students who seek a thorough grounding in the arts and sciences from an interdisciplinary perspective.

“While at UT Dallas, I’ve found classes in healthcare studies to be challenging and engaging. As a student on a pre-health academic track, all of my major related classes are directly related to my ongoing education and future career. For me, UTD has really been the best place to get an education. From the beautiful campus to the outstanding professors who truly care for their students, I always feel that I am in the perfect environment to be successful.”

– JAGANNATH KANDADAI

Naveen Jindal School of Management

Undergraduate: 972-883-2275 | Graduate: 972-883-2750 | jindal.utdallas.edu

The Naveen Jindal School of Management provides students at the undergraduate, graduate and PhD levels an outstanding educational experience in an environment that has gained national and international recognition. A Jindal School education will increase and sharpen students’ skills, prepare them with strong career prospects and help them become business leaders. The Jindal School offers traditional as well as evolving-market programs that focus on challenges in our technology-driven global society and cover a wide breadth of topics keyed to industry and research.

The Jindal School incorporates industry experiences and expertise in its programs. In addition to emphasizing internships, which are required in undergraduate study, the school involves students in corporate assignments, and it invites executives and experts to participate in classroom projects. International study and internship opportunities abound, including long-term exchange programs and faculty-led study trips. The school’s Career Management Center’s services range from career coaching, résumé writing, interviewing and social media workshops to internship and job-search assistance. At the Jindal School, students are equipped to make business their future.

“The University of Texas of Dallas provided me with resources pivotal for success. Professionally, I have enhanced my communication and networking skills by working in the Jindal School recruitment office. My job has allowed me to work with prospective high school students interested in business I have learned enough to help offer them advice on their future career plans. Moving to a big city like Dallas from El Paso has also given me the opportunity to pursue my finance degree and grow personally at the same time. ”

School of Natural Sciences and Mathematics

Undergraduate: 972-883-2500 | Graduate: 972-883-2234 | nsm.utdallas.edu

The School of Natural Sciences and Mathematics offers 29 undergraduate and graduate programs within its six departments: biological sciences, chemistry and biochemistry, geosciences, mathematical sciences, physics and science and math education. Each program is research intensive, with close cooperation from industry. Faculty members compete at the national level for sponsored research. Graduates go on to pursue careers at colleges and universities as well as in industrial, medical, public health, environmental and government organizations.

The school also offers the lauded UTeach Dallas program that enables students to get teaching certification in mathematics or science without requiring additional time to earn their degree. For more information, see the UTeach Dallas section (page 25).

“Being a part of the School of Natural Sciences and Mathematics is inspiring. Everyone around me hopes to make an impact in the world and they go the extra mile to make progress. The best part is how helpful everyone is. From the caring advisors and intellectual professors to the outgoing organizations on campus and my enthusiastic peers, I feel reassured when I know I have someone that I can always turn to, no matter what the problem is. Having both support and inspiration to try harder allows me to excel in academics and my life as a whole.”

Teacher Certification Preparation Programs at UT Dallas

Teacher Development Center
972-883-2730 | utdallas.edu/teach

The UT Dallas Teacher Development Center offers both undergraduate and post-baccalaureate students a path to achieving teacher certification in Texas. Undergraduate students major in their chosen field of study as they simultaneously complete a sequence of professional education courses usually during their junior and senior years. Undergraduate students can complete their undergraduate degree and teacher certification within 120-124 hours. Undergraduates should meet with an academic advisor to develop a degree plan no later than the end of the second regular semester where they earn 45 or more hours, indicating their interest in teacher certification. Students can then make an appointment for certification plan advising with the Teacher Development Center. Post-baccalaureate students, those who already earned bachelor’s or graduate degrees, complete a sequence of professional education courses along with any unfulfilled content field courses required by the teaching certification they seek. The culminating experience in professional education preparation is a semester of supervised student teaching.

Numerous teacher certification plans are offered through the Teacher Development Center.

UTeach Dallas
Mathematics, Science and Computer Science Certification for Middle and High School Teaching
972-883-6485 | utdallas.edu/uteach

The UTeach Dallas program offers both undergraduate and post-baccalaureate students a path to teaching certification for secondary STEM fields. Undergraduates can earn a degree in their chosen science, computer science or mathematics-related field while concurrently completing a sequence of professional education courses for a secondary teacher’s certification. Students in UTeach Dallas teach actual math or science lessons in local school districts beginning with the first semester of the program. These teaching experiences continue throughout the program progressing from upper elementary, middle school and on to high school before apprentice teaching. The tuition for the first two courses is reimbursed to students. Financial aid in the form of paid internships and scholarships is also available to UTeach Dallas students. Encouraged to start in their freshman year, most students can complete both undergraduate degree and teacher certification within 120-124 hours over four years. A faster path is available for transfer students who begin certification later in their degree plans. Post-baccalaureate students may complete certification only or combine UTeach Dallas with an advanced degree such as the Master of Arts in Teaching in Mathematics Education or Science Education.

UTeach Dallas prepares teachers for several levels of certification in the STEM disciplines:

Undergraduate Research

972-883-4515 | go.utdallas.edu/srr

UT Dallas strongly encourages students to participate in research and offers a wealth of opportunities for undergraduates in many disciplines. From unlocking the secrets of cancer, to developing new nanotechnologies, to understanding the cosmos, UT Dallas provides myriad possibilities for scientific discovery and innovation.

By pairing exceptional faculty with promising students, UT Dallas helps strengthen students' basic understanding of scientific principles and provides hands-on experience with the scientific process. Undergraduates learn how to solve unique problems and face intellectual challenges while developing skills in a supervised university research environment.

Opportunities include:

Undergraduate Research Scholar Awards
Students apply for funding to conduct research during the academic year with faculty mentors in a wide range of fields. Recent awarded projects have involved flexible electronics, autism, facial recognition, online communities, homelessness, molecular biology and nanotechnology.

Undergraduate Research Match Day
Match Day, an annual event, is open to all students and is designed to facilitate the process of pairing motivated undergraduates with faculty who have research projects. Students who participate will gain valuable research experience that contributes to future success professionally, or in graduate school. Faculty who engage undergraduates in research enhance grant applications by demonstrating mentorship alongside quality student researchers.

Exhibition of Excellence in Undergraduate Research
Each year, the Office of Undergraduate Education collaborates with departments across campus to host the Exhibition of Excellence in Undergraduate Research (EEUR). This weeklong event provides undergraduates an opportunity to learn more about research opportunities, to receive recognition for research related accomplishments, and to compete for valuable research awards. A panel discussion, research résumé workshop, Match Day and the Undergraduate Research Poster Contest are just a few of the events where aspiring researchers may gain experience.

Anson L. Clark Summer Research Program
This intensive summer research experience for first-time-in-college freshmen includes laboratory work and theory development. Topics have ranged from tinnitus studies to environmental monitoring to improving socioeconomic conditions in Colombia.

The Exley
UT Dallas’ undergraduate research journal contains cutting-edge analytical research and innovative creative works provided by students from every discipline.

Student Success Center

972-883-6707 | utdallas.edu/studentsuccess

Located in the McDermott Library, the Student Success Center (SSC) offers free academic support services to undergraduate students. The SSC mission is to improve academic success for all UT Dallas students. A peer-to-peer model is the cornerstone of all the center’s programs, with over 250 high-achieving students available to help their fellow Comets. The center includes Peer-Led Team Learning (PLTL) for science and math and Supplemental Instruction (SI) for over 45 historically difficult courses. Peer Tutoring also offers a drop-in lab, one-on-one appointments, weekly reviews and exam reviews for science and math courses. The Writing Center provides assistance at any stage of the writing process for nearly any writing assignment, and the Communications Lab (CommLab) provides oral presentation assistance. The SSC also houses Academic Success Coaching, which hosts workshops and one-on-one appointments to help students with time management, test anxiety, identifying learning styles and more. Comet Cents Money Management Center provides education and information on personal financial topics.
Pre-Professional Programs

Institute for Innovation and Entrepreneurship
The Institute for Innovation and Entrepreneurship promotes cross-disciplinary academic and startup programs for the students and offers them the opportunity to gain experience in entrepreneurial activities. In addition to the center itself, undergraduate students are able to earn a concentration in entrepreneurship or a minor in innovation and entrepreneurship. The Institute is also partnered with Blackstone Launchpad, a campus-based entrepreneurship program designed to mentor and support students looking to launch their own companies. 972-883-5990 | innovation.utdallas.edu

The Pre-Law Advising Center helps students from all majors make informed decisions about their preparation for law school and a legal career. The center provides advice about the admissions process and assists with preparation of law school applications through workshops, campus visits from law school admissions deans and other experts, and one-on-one consultations. Top law schools regularly accept UTD students, and the center assists with evaluation of admission and scholarship offers.

Students have the opportunity to participate in activities designed to provide knowledge of the legal system and readiness for the law school experience, including competitions at the regional and national level in Moot Court, Mock Trial and Mediation. These teams practice in UTD’s own mock courtroom. Students also have the opportunity to gain hands-on experience investigating the case files of clients seeking exoneration due to wrongful conviction, under the supervision of the Innocence Project of Texas. 972-883-6712 | utdallas.edu/pre-law

The Health Professions Advising Center (HPAC) advises students preparing to enter medicine, dentistry, pharmacy, podiatry, veterinary medicine, optometry and other health professions. From freshman year and throughout their time at UT Dallas, students work with an HPAC advisor to create an effective, individualized plan to meet their goals. Students receive access to computers, study groups, anatomy models and the latest health industry periodicals at the Pre-Health Resource Room.

HPAC supports students who plan to apply to health profession schools by offering seminars and workshops, application editing, interviews, and committee evaluation—all parts of the Health Professions Evaluation process, which begins the fall before they apply to professional schools. Pre-med and pre-dental students are accepted to medical and dental schools at a rate generally 15-20 points above the national average, and the rate increases dramatically for students who participate in the Health Professions Evaluation. 972-883-6767 | utdallas.edu/pre-health

Undergraduate Success Scholars
Undergraduate Success Scholars (USS) program provides mentorship and exclusive engagement opportunities for select underrepresented minority undergraduates. Students are invited to join USS after they are admitted to the University. Once accepted, students join a cohort and program that provides academic support and guidance to meet both personal and professional goals. They also have the chance to attend individual meetings, workshops, student-led cohort events (networking opportunities and informational sessions), and campus-wide activities. 972-883-3864 | uss.utdallas.edu
The Hobson Wildenthal Honors College provides administrative support and guidance to a collection of programs of academic excellence. Three highly selective affiliated scholars programs with generous financial support are featured on the following pages. Subsequent pages feature information about specific honors experiences located in departments across the University. The Hobson Wildenthal Honors College also promotes many of the intellectual competitions and programs of excellence listed below. For more information on these various programs, please see the UT Dallas website and the honors college website honors.utdallas.edu.

### Programs of Excellence

Distinguished Scholars Programs

The Eugene McDermott Scholars Program
utdallas.edu/mcdermott

Faculty in the Hobson Wildenthal Honors College work closely with the Eugene McDermott Scholars Program, whose scholars also participate in honors activities.

The Eugene McDermott Scholars Program at UT Dallas is more than a merit scholarship; it is a program of exceptional experiences and unmatched opportunities. Focused on excellence in scholarship, leadership, service and character, scholars blend classroom and pre-professional pursuits, community and campus involvement, and travel and cultural activities to create an individualized college experience. The program welcomes all majors and careers from all states and countries. Finalists are invited to interview each March, with approximately 20 Scholars selected.

Minimum Qualifications:
- Academically distinguished: score 1490 or higher on the SAT or 33 or higher on the ACT or designated a National Merit Semifinalist.
- First-time college freshman.

Additional Considerations:
- In top five percent of their class.
- Demonstrates dedication to service and leadership.
- Displays exemplary character.
- Broad and eclectic interests.
- Strong communication skills.

Application Materials:
- Completed online McDermott Scholars Program application including essays (utdallas.edu/mcdermott).
- Three recommendations — one of the three must be a high school counselor.
- High school transcript submitted online.
- Completed UT Dallas application required by final McDermott application deadline.

Amount of Award
Valued at over $150,000 for in-state and over $250,000 for out-of-state students, the McDermott award provides tuition and most fees, living stipends, book allowances, study abroad and professional development funds, cultural event tickets and cohort travel. The award may not be deferred.

The Terry Scholars Program
honors.utdallas.edu/terry/scholars

The Terry Scholars Program is a four-year cohort experience that provides academic, cultural, mentoring and other opportunities to students awarded prestigious Terry Foundation scholarships.

Qualifications:
- Graduating senior of a Texas high school or home school.
- Acceptance to The University of Texas at Dallas (fall semester only).
- Demonstrate a strong record of academic achievement.
- Exhibit a notable record of leadership and volunteerism.
- Free Application for Federal Student Aid (FAFSA) review. Eligibility for need-based aid is not a requirement to receive the scholarship.
- Net annual family income of $100,000 and below (subject to a case-by-case review).
- U.S. citizen or permanent resident.
- Texas resident.

Application Materials:
- Sealed official copy of high school transcript with grades earned in the senior year. If senior grades are unavailable, a report card will suffice.
- Two letters of recommendation (one from a high school teacher).

Other Important Information:
- The total four-year Terry stipend and, if applicable, financial-aid award is more than $110,000.
- Apply for on-campus housing (all Terry Scholars are required to live on campus for the first year).

National Merit Scholars Program
honors.utdallas.edu/nmsp

The National Merit Scholars Program at The University of Texas at Dallas combines a specially designed set of intellectual and cultural opportunities with generous financial support. Located in the Hobson Wildenthal Honors College, the program works closely with each of the eight schools at UT Dallas to promote academic achievement and to celebrate scholarly success.

UT Dallas’ National Merit Scholars enjoy academic support and exceptional opportunities. Scholars are eligible for inclusion in the Collegium V Honors Program, which provides access to small class sizes and some of the University’s top faculty members. Scholars have the opportunity to participate in the Honors Roundtable Series, a set of discussions across the disciplines led by UT Dallas faculty members or guest lecturers.

Beyond the classroom, National Merit Scholars enjoy attending a variety of entertainment activities such as the opera, the symphony and multiple theaters and museums. Scholars also receive academic and career mentoring and work closely with the Office of Distinguished Scholarships to support applications for competitive national awards such as Fulbright, Goldwater and Marshall Scholarships.

UT Dallas’ commitment to recruiting the top academic applicants in the country through the National Merit Scholars Program includes a highly competitive award that is among the most generous in the nation.

### Estimated Value of National Merit Finalist Scholarship at UT Dallas:

<table>

Collegium V Honors Program
honors.utdallas.edu/cv

The University of Texas at Dallas’ commitment to excellence in teaching and research extends to every aspect of academic life in the University. The Collegium V Honors Program provides a four-year honors experience that encourages intellectually creative, inquisitive and highly motivated students to extend their educational experience beyond the scope of the traditional undergraduate curriculum. Small classes, innovative instruction, world-class faculty, bright and inquisitive colleagues, and an array of extracurricular events offer Collegium V members opportunities for professional and personal growth at the University.

The Collegium V Honors Program uses three pillars to support the program philosophy in a student’s academic life.

Collegium V:
• Encourages student participation through high quality instruction and small class size.
• Facilitates mentoring relationships between faculty and students, providing career counseling and excellent letters of reference.
• Offers lounge and classroom space to celebrate academic inquiry and intellectual discipline through planned and spontaneous collaboration.

Through these program components, Collegium V students engage in frequent intellectual discussions with professors, mentors and peers that complement the broad range of academic and student life experiences that characterize a UT Dallas undergraduate education.

Eligibility Requirements:
• 1410 SAT – or – 31 ACT
• Top 10 percent of class – or – 3.6 HS GPA

Application Timeline:
Students must be accepted to UT Dallas before their applications will be considered. Review of applications will begin in November and continue until the class is full. To request an application, please contact the program:

E-mail: collegiumv@utdallas.edu
Phone: 972.883.4297

Computing Scholars Honors Program
utdallas.edu/~ivor/ComputingScholars

The Computing Scholars Honors Program is an intense bachelor’s degree program in computer science. This program was created for gifted students who wish to pursue a demanding course of study enriched with research experiences. Graduating scholars will be prepared for multiple career opportunities including a university research position or roles in private industry. Admission to the program is primarily by invitation and is limited to no more than 30 students per year. The selection committee reviews nominations from parents, teachers and others familiar with an applicant’s academic standing.

Davidson Management Honors Program
jindal.utdallas.edu/undergraduate-programs/honors-program/

The Davidson Management Honors Program is committed to graduating well-rounded citizens and community leaders who actively pursue personal and intellectual growth in the Naveen Jindal School of Management. Students benefit from taking smaller classes with highly regarded faculty members, as well as access to exclusive professional development and community service events, scholarship opportunities and domestic and international study trips.

Application for Entering Freshmen Students:
• Must submit an online application, essay, résumé and letter of recommendation.
• Must be in the top 20 percent of their high school graduating class.
• Minimum 1310 on SAT or comparable ACT score.
• Phone interview (by invitation only).
• Qualified students can also apply to additional honors programs such as Collegium V, Terry Scholars, National Merit Scholars Program and McDermott Scholars.

Freshman Admission Deadlines:
• Early Action Notifications: By Feb. 4, 2019 (non-binding admission).
• Applications are still accepted after the Dec. 3 early action deadline and will be reviewed on a rolling basis until classes are full. Students are encouraged to apply as early as possible.
Liberal Arts Honors Program
honors.utdallas.edu/liberal-arts
The Liberal Arts Honors experience is a cohort program for students majoring in disciplines in the School of Arts and Humanities and the School of Economics, Political and Policy Sciences. The program is designed to provide a broad and engaging cohort curriculum that will supplement the academic trajectories of the student participants. Students will major in their chosen field and pursue coursework consistent with their major. Liberal Arts Honors students will also register for courses with the Liberal Arts Honors cohort that will either meet requirements in their degree plan or supplement their field of study.

Programs of Excellence

Archer Program
honors.utdallas.edu/archer
The Archer Center educates the next generation of leaders for service in local, state, federal and international organizations.

The Bill Archer Fellowship Program for Undergraduates was established by The University of Texas System in conjunction with former U.S. Rep. Bill Archer as a way to bring highly motivated and accomplished students to Washington, D.C. Students take nine hours of classes focusing on public policy, economics and governance. Students also earn six hours of internship credit at places such as the United Nations, U.S. Department of State, the White House, the Supreme Court, the Capitol, or federal agencies and non-profit organizations.

Carl J. Thomsen Fund for Student Enrichment
honors.utdallas.edu/thomsen-fund
The Carl J. "Tommy" Thomsen Fund for Student Enrichment provides free tickets for UT Dallas students to attend performances and other fine arts events in the Dallas area. Among the tickets the Thomsen Fund routinely purchases are those for the Dallas Symphony, Dallas Opera, Dallas Theater Center, TITAS Music and Dance Series, Texas Ballet Theater, Undermain Theater and Dallas Chamber Symphony.

Green Fellows Program
honors.utdallas.edu/green-fellowship
The Green Fellows program, offered jointly by UT Dallas and UT Southwestern Graduate School of Biomedical Sciences, provides semester-long, fully paid undergraduate research fellowships for UT Dallas students. Students pursue individual research projects under the direction of the graduate school faculty at UT Southwestern. A select number of applicants are admitted by faculty mentors and assigned to a research project according to each fellow’s previous training and research interests.

Green Fellows gain experience in modern research techniques and plan and execute an experimental strategy to answer a scientific question. The program introduces students to the kinds of projects encountered during postgraduate research training and fosters an understanding of the planning, discipline and teamwork involved in the pursuit of answers to current questions in the biological sciences.

At the end of the semester, fellows present their research in a forum. In addition to intensive research, Green Fellows attend lectures and seminars on the UT Southwestern campus.

Office of Distinguished Scholarships
honors.utdallas.edu/distinguished-scholarships
UT Dallas attracts some of the nation’s brightest and most creative minds. The Office of Distinguished Scholarships supports these individuals in their applications for nationally and internationally competitive scholarships and fellowships that allow them to continue their studies and travel around the world.

National public policy and generous philanthropic giving have provided many scholarship opportunities for undergraduate students. Generally, a distinguished national scholarship has a national or international applicant pool of students in the top fifth of their academic class and provides an award or recognition to less than a third of applicants.
Phi Kappa Phi
honors.utdallas.edu/phikappaphi

Phi Kappa Phi is the nation’s oldest, largest and most selective collegiate honor society for all academic disciplines. Members of Phi Kappa Phi can apply for scholarship and fellowship funding from the local UT Dallas chapter and from the national organization.

Phi Kappa Phi membership is earned. Admission is invitation-only and requires nomination approval by the local chapter. Requirements include:

- Juniors must have completed at least 72 credit hours, with at least 24 semester hours at their current institution, and rank in the top 7.5 percent of their class.
- Seniors must have completed at least 24 semester hours at their current institution and rank in the top 10 percent of their class.
- Graduate students must have completed at least 18 graduate hours and rank in the top 10 percent of their class.

Texas Legislative Internship Program
honors.utdallas.edu/texas-legislative-internship-program

The Texas Legislative Internship Program (TLIP) is an undergraduate internship program in the Texas state capitol during the spring semester when the legislature is in session. This program provides academic, professional and practical support for students while they intern in a state legislative or senatorial office for a full semester.

The program is open to students from all majors who have an interest in the legislative process and Texas politics. It is an intensive experience and—to allow for full-time participation—the program provides UT Dallas students with six hours of class credit and six hours of internship credit.
The cost of college varies from student to student even at the same university, and the posted tuition rate isn’t necessarily the ultimate cost to students and their families. Factors such as academic programs, academic progress and student lifestyles affect the bottom line. Based on current experience, these are the approximate costs a student might expect for one full year without any financial aid, scholarship or other assistance. For the most current tuition rates, refer to the financial aid website at utdallas.edu/finaid.

Based on 30 hours (15 hours per semester) beginning fall 2018. Room & Board is based on on-campus housing. Use only as a guideline for estimating charges. Estimates are subject to change. See page 42 for additional details regarding variable or guaranteed tuition plans. Travel and miscellaneous costs are estimated at $3,520 for financial aid purposes. Oklahoma residents pursuing their first undergraduate degree pay the Texas resident tuition rate plus $30 per credit hour. Students must show proof that they are residents of Oklahoma to receive this waiver.

Financial Aid at UT Dallas

The Financial Aid Office helps remove financial barriers and assists students with the cost of attendance at The University of Texas at Dallas. The office strives to provide students with the federal, state and institutional financial assistance they are eligible to receive to pursue their educational objectives.

The application period for financial aid begins October 1 of each year for the following academic year (fall, spring and summer).

The Free Application for Federal Student Aid (FAFSA) is available online at fafsa.gov. Residents of Texas who are ineligible to receive federal aid may qualify for assistance through the Texas Application for State Financial Aid (TASFA). Information for eligibility is available at www.collegeforalltexans.com.

UT Dallas Office of Financial Aid

Office Hours: Monday–Thursday 9 a.m.–6 p.m.; Friday 1–5 p.m.
972-883-2941 | utdallas.edu/finaid
Academic Excellence Scholarships
aes.utdallas.edu

UT Dallas offers Academic Excellence Scholarships (AES) each year to incoming first-time in college freshmen students. Awards range in value from a $3,000 tuition credit per semester to full-tuition awards with an additional stipend. The application for admission to the University serves as the AES application. Prospective first-time applicants applying for admission to the fall semester immediately following high school graduation who complete their application for admission by the priority deadline of January 15 are reviewed automatically for AES awards. The materials included in completed applications provide the information necessary to determine scholarship eligibility, in particular SAT/ACT scores, class rank (if available), high-school grades and curricular information about types and levels of classes taken. AES is a merit-based scholarship.

Decisions on admission to UT Dallas and AES awards are made continuously upon receipt of completed application materials. Students who are awarded an AES will be informed of their award soon after receiving notification of admission to UT Dallas. Funds available for each year’s new scholarship awards are limited, and students applying after January 15 will be considered for scholarship awards contingent upon availability of funding.
AES ELIGIBILITY

Award Factors:
- Grades in all course work.
- Success in Advanced Placement, IB or dual credit courses.
- SAT or ACT scores.
- Class rank.

No specific achievement in any category of the AES award factors will guarantee a scholarship. The quality and number of applicants, as measured by SAT and ACT scores, increases each year which results in a highly competitive AES consideration process. The amount a student receives is determined by a combination of standardized test scores and high school academic record. AES recipients in most years have scored at least 1320 SAT / 28 ACT in combination with a strong high school academic record. For more information, visit aes.utdallas.edu.

MAINTAINING AES

AES recipients agree to meet the following academic requirements:
- Maintain good academic standing at UT Dallas.
- Demonstrate satisfactory and timely progress toward graduation in four years.
- Adhere to the UT Dallas Student Code of Conduct. The AES Program reserves the right to review violations of the UT Dallas Code of Conduct in order to determine AES eligibility.

OPPORTUNITIES FOR AES RECIPIENTS

Summer Usage
Students who have met the AES academic requirements (see above) at the conclusion of the spring semester may utilize their AES during the summer; students must enroll in a minimum of nine UT Dallas hours. The summer semester will count as one semester toward overall scholarship eligibility. Approval is required before enrolling in classes.

Graduate Usage
AES recipients who complete their undergraduate degree before exhausting all eight semesters of AES funding eligibility, may request to apply their remaining semester(s) of AES support toward a degree-seeking graduate program. Enrollment must be continuous and students must receive approval from the AES program.

ADDITIONAL SCHOLARSHIP OPPORTUNITIES

Valedictorian Scholarship
Texas high school valedictorians eligible for the State of Texas Exemption for Highest Ranking High School Graduate and admitted to UT Dallas as freshman may qualify for the AES Valedictorian Scholarship in subsequent years.

The State of Texas Exemption for Highest Ranking High School Graduate is applicable toward tuition for the first two regular semesters following high school graduation. Renewal for the second regular semester following high school graduation is automatic for students with at least a 2.0 GPA after the first regular semester.

- The Valedictorian Scholarship provides complete coverage of UT Dallas tuition and mandatory fees for the first two regular semesters following high school graduation.
- To be eligible for consideration of the Valedictorian Scholarship, students must receive the State of Texas Exemption for Highest Ranking High School Graduate. Students must also meet the AES requirements during their first year at UT Dallas. At the conclusion of the academic year, students who received the Highest Ranking Exemption and met the requirements will be contacted about the Valedictorian Scholarship.
- Students who qualify for an AES award of higher value than the Valedictorian Scholarship may elect to receive the scholarship of higher value. The State of Texas Exemption for Highest Ranking High School Graduate will still be applied toward tuition and fees for the first two semesters.
Transfer Scholarships

Comet Transfer Scholarship

The Comet Transfer Scholarship Program is available to qualified, first-time undergraduate transfer students who are Texas residents at the time of admission and have earned 30–90 transferable semester credit hours, of which a minimum of six credit hours must have been completed after high school graduation (excluding the summer immediately after high school graduation). This scholarship ranges from $250 to $1,500 per semester based on part-time or full-time enrollment as shown below. Transfer students are automatically reviewed for this scholarship after they have been admitted. Students who have previously earned a four-year, U.S. bachelor’s degree or its equivalent are not eligible to receive this award.

For scholarship consideration 12+ hours qualifies as full-time and 6-11 hours qualifies as part time.

Phi Theta Kappa Transfer Scholarship

The Phi Theta Kappa Scholarship (PTK) is available to qualified first-time undergraduate transfer students who are current members of PTK and who are Texas residents at the time of admission and have earned 30–90 transferable semester credit hours, of which a minimum of six credit hours must have been completed after high school graduation (excluding the summer immediately after high school graduation). Students who have previously earned a four-year, U.S. bachelor’s degree or its equivalent are not eligible to receive this award.

For scholarship consideration 12+ hours qualifies as full-time and 6-11 hours qualifies as part time.
Tuition Plans

UT Dallas offers the option of a variable tuition rate or a guaranteed tuition plan to all new students. Tuition and fee charges cap at the 12 credit hour rate under either. Therefore, tuition charges will not increase for enrollment beyond 12 credit hours within a single semester.

The Variable Tuition Plan will adjust each year. This is the default plan for all entering students.

All new students are eligible to lock in their tuition rate for four years by opting in to the UT Dallas Guaranteed Tuition Plan. The plan is UT Dallas’ effort to help students and their families budget for the cost of a college education, while allowing the University to maintain the quality of its academic programs.

Students who select the Guaranteed Tuition Plan will be charged for tuition and mandatory fees at a fixed rate for 12 consecutive semesters, including summers.

For additional information about the Guaranteed Tuition Plan, please call the UT Dallas Bursar’s Office at 972-883-2612 or visit utdallas.edu/bursar.

The Tuition Promise

The Tuition Promise applies to new, full-time freshman students who are residents of Texas. To be eligible, students must be admitted to the University and have turned in all financial aid forms with supporting documents by March 15.

To benefit from the plan, students must be eligible to receive federal Pell grants and the annual family income of their families may not exceed $25,000. Students must be full-time at UT Dallas. In addition, students must meet UT Dallas entrance requirements.

To remain eligible for the program, students must complete 30 credit hours each year with a minimum 2.5 term and cumulative grade point average, and must continue to meet income and grant eligibility requirements. Students must reapply for the program each year by the deadline and meet eligibility requirements. The Tuition Promise will be effective for four years or until a student graduates, whichever comes first, and will pay only for classes taken in the fall and spring semesters.

To be considered, students must be fully admitted to the University and submit a Free Application for Federal Student Aid (FAFSA) and related documents by March 15, the University’s priority deadline for financial aid.

For additional information about the Tuition Promise, please call the Office of Financial Aid at 972-883-2941.
Comet Athletics
utdcomets.com

Men’s | Women’s
---|---
Basketball | Basketball
Soccer | Soccer
Golf | Golf
Baseball | Softball
Tennis | Tennis
Cross Country | Cross Country
   | Volleyball

UT Dallas’ intercollegiate athletic program is one of the most successful in the NCAA Division III American Southwest Conference (ASC). UT Dallas teams perennially challenge for conference championships in almost every sport.

Comet athletics by the numbers:
- 26 conference titles since 2002.
- 25 NCAA Division III National Championship Tournament bids since 2002.
- 350+ student-athletes.
The Comets have been their most successful in:

- **Basketball:** The UT Dallas women’s basketball team has advanced to the NCAA Division III National Tournament in four of the past six seasons, advancing to the Sweet 16 in 2015. The Comet women have won three ASC championships since 2013. The men’s basketball team, which has won three ASC championships, has been to the Sweet 16 round of the NCAA Division III national tournament in 2009, 2010 and 2014, and just missed advancing to the Final Four in 2009.

- **Soccer:** The men’s and women’s soccer teams have posted winning records almost every year since 1998, and both are regular qualifiers for the ASC Championship Tournament. The UT Dallas men’s team has won the ASC championship four times since 2004, including the two of the past three seasons. The Comet men made three straight appearances in the NCAA Division III national tournament from 2014-16, hosting the first two rounds in 2014. The women’s team has advanced to the tournament title game numerous times, winning a title in 2002 and sharing the championship in 2004.

- **Volleyball:** In just 14 seasons since the program began in 2004, the UT Dallas volleyball team has qualified for the conference postseason every year, won seven consecutive division titles and five ASC championships. The Comets picked up their fifth overall and third straight ASC title in 2017 and advanced to the NCAA Division III national tournament for the sixth time in program history.

- **Baseball:** UT Dallas’ baseball program has had a winning record every year since its inception in 2002, has qualified for the ASC Championship Tournament almost every season and won the league title in 2018. The program has advanced to the NCAA Division III playoffs twice.

- **Softball:** In 2017, the softball team won the ASC championship for the first time in program history.

- **Tennis:** The UT Dallas men’s and women’s tennis teams each collected ASC championships in 2013 and both squads advanced to the NCAA Division III national tournament.

- **Cross County:** The women’s cross country team collected its second consecutive ASC championship in 2017. The men’s squad has placed in the top four at the ASC meet each of the past five seasons, finishing second in 2016 and 2017.

- **Golf:** The men’s golf team claimed the ASC championship in 2003 and has placed in the top five in four of the past five league tournaments. The women’s team has become very competitive in the league as of late, placing as high as fourth at the ASC championship in 2015.
Student Affairs
utdallas.edu/studentaffairs
Student Affairs provides a wide array of programs and services that not only promote students’ academic achievement but also offer a broad range of opportunities for personal growth and development. Specifically, it provides oversight for:

- Athletics and University Recreation
- Center for Students in Recovery
- Counseling and Wellness Centers
- Dean of Students
- Fraternity and Sorority Life
- Health, International and Career Centers
- Military and Veteran Center

New and Transfer Student Programs
- Programs for Minors
- Student AccessAbility
- Student Media
- Student Union
- University Housing
- Student Activities and Organizations

Freshman Year Experience
utdallas.edu/fye
The Freshman Year Experience (FYE) is a combination of programs and services designed specifically for incoming freshmen to make their transition to college easier and their first year more successful. FYE is a collaborative effort provided through Student Affairs and the Office of Undergraduate Education. By participating in FYE programs, a first-year student may:

- Gain a better sense of campus community and pride in the University.
- Achieve academic and social success by developing good habits through connections with faculty, staff and students.
- Make new friends more easily.
- Develop strong leadership skills.
- Experience a greater connection to the campus.

Freshman Orientation
utdallas.edu/fye/orientation
This two-day introduction to campus helps freshmen get off to a good start at the University. During orientation, students have the opportunity to:

- Meet other students and make new friends.
- Meet with academic advisors and discuss courses and majors.
- Complete course selections and register for classes.
- Learn about the University’s services and resources.
- Get acquainted with the UT Dallas campus.

New student orientations for freshmen entering in the fall are held in June, July and August. New student orientation is scheduled in January for the spring semester and in May for the summer semester. For some orientation sessions, students may choose to stay overnight in a residence hall.

Parents and other family members are encouraged to attend orientation with their student. Separate programs designed specifically for parents provide needed information to help their student throughout the year. Parents and families also have the opportunity to meet faculty, staff and other parents in a fun and relaxing atmosphere.
**Sophomore Year Experience**

*utdallas.edu/soye*

The Sophomore Year Experience (SOYE) is an initiative that provides various programs and activities designed especially to help returning students throughout their sophomore year at UT Dallas. Designed for the challenges and opportunities that sophomores face, SOYE assists with important personal and academic decisions regarding the final years at UT Dallas and beyond.

**Student Activities**

**Alternative Spring Break**

*utdallas.edu/springbreak*

The Office of Student Volunteerism hosts the University’s annual Alternative Spring Break initiative, a program in which students travel to various sites during the week of spring break to volunteer with nonprofit organizations. Previous trips have included service projects benefiting the elderly, at-risk youth, homeless populations and special-needs children, as well as assisting with disaster relief, parks restoration and environmental cleanup.

**Externship/Job Shadowing**

*utdallas.edu/career/externships*

During spring break, students who participate in the “Explore the Wow!” externship/job shadowing program receive a firsthand look at a career of their choice, make valuable networking contacts and have the opportunity to see how classroom learning can be applied to real-world situations.

**Education Abroad**

*utdallas.edu/ea*

Students who study abroad often develop career skills such as critical thinking, problem solving and adaptability, which make them more marketable to employers. UT Dallas offers a number of ways students can gain education abroad, including faculty-led programs, study abroad programs, internships, independent studies and exchange programs.

**Comet Camp**

*utdallas.edu/cometcamp*

A three-day, two-night adventure held away from campus, Comet Camp is a great way for new students to make friends, learn about UT Dallas traditions and attend sessions about thriving in college. Comet Camp is usually held in July and August, prior to the fall semester.

**Success Camp**

*utdallas.edu/successcamp*

UT Dallas Success Camp teaches students the skills to thrive in college classes. They will have the opportunity to meet professors and learn secrets of success from upperclassmen. The camp includes hands-on experiences designed to help students flourish academically. Success Camp is held in August prior to the start of the fall semester.

**University Convocation**

*utdallas.edu/convocation*

University Convocation, a special welcome ceremony for incoming students, marks the beginning of a student’s academic career at UT Dallas. The University president and other senior administrators welcome students to the University. A keynote speaker also addresses students.

**Leadership**

*utdallas.edu/leadership*

The leadership program focuses on preparing students for a successful college career by offering them the opportunity to enhance their leadership skills through workshops and involvement at UT Dallas and beyond.

**F.E.S.T. (Freshmen Engaged In Service Together)**

*utdallas.edu/volunteer*

F.E.S.T. is designed just for freshmen. It’s an opportunity for students to learn the importance of service to others, connect with other freshmen and work in surrounding communities.

**Living Learning Communities (LLC)**

*utdallas.edu/livinglearning*

Freshmen who live on campus can choose to be part of a living learning community. These communities group students who share the same academic interests, and the students live together and have opportunities to take part in events and service related to their community theme.
Road Warriors
utdallas.edu/roadwarriors
Road Warriors is a social program that helps commuters find their place at UT Dallas, keeps them informed about campus events and enables them to network with other students. Road Warrior activities ensure that students who live off campus have opportunities to take part in the social events that bring the campus together.

Freshman Ignite
utdallas.edu/fye/events
Sponsored by Student Transition Programs and residential life, this event celebrates the completion of a student’s first year at UT Dallas and officially welcomes freshmen to their sophomore year.

International Student Information
utdallas.edu/ic
International Student Services provides general immigration information for UT Dallas students who are non-U.S. citizens and permanent residents, and provides particular services for students who wish to obtain and maintain an F-1 or J-1 immigration status.

Services include: issuance of F-1 and J-1 immigration documents (I-20s and DS-2019s); guidance for international students to understand and comply with immigration-related rules and regulations; work authorizations; travel authorizations; and individual advising.

For students wishing to transfer their immigration status to an F-1 or J-1 student status from another non-immigrant status, International Student Services provides individual advising sessions and regular workshops.

International Student Orientation
International undergraduate students are strongly encouraged to attend Freshman Orientation or Transfer Orientation. The international student session offered during these orientations will fulfill the International Student Orientation requirement. Graduate international students in F or J status, and individuals changing to F-1 student status from another non-immigrant status, must attend International Student Orientation. More information on orientation requirements can be found at utdallas.edu/icp/iso.

Class Registration
F-1 and J-1 students (and students applying for F-1 and J-1 status) may register for classes only after they have:

- Met the International Student Orientation requirement.
- Turned in completed tuberculosis testing documents to the Student Health Center.
- Completed academic advising, if required for their program.
- Completed a change of address online through the Orion Student Services Center in Galaxy.
- Submitted meningitis vaccine requirement form to the Office of the Registrar, if under the age 22.
- Review the New International Student Checklist at utdallas.edu/icp/new-student-checklist.
Career Center
utdallas.edu/career
The Career Center offers a variety of services for students at all stages of their career development process. Career consultants meet with students to discuss everything from major selection and interests to internship and job search strategies. The center provides a variety of career workshops and employer networking activities, as well as an online job and internship search database. On-campus student employment and work-study positions are also managed by the Career Center. Students are strongly encouraged to connect with the Career Center early in their academic career.

UT Dallas graduates have received job offers from companies that include:

Amazon
American Airlines
Apple
AT&T
Boeing
Cisco Systems
Dallas ISD
Deloitte
Ericsson
Ernst & Young
Expedia
Fidelity Investments
Fujitsu
Google
Groupon
Hewlett Packard
Hotels.com
IBM
Intel
Intuit

Student Counseling Center
utdallas.edu/counseling
The Student Counseling Center provides programs and services designed to help students achieve greater emotional well-being. Counselors help students manage academic and personal demands more effectively. A licensed psychiatrist, psychologists and counselors are available by appointment or in times of emergency. All counseling is confidential.

Student AccessAbility
utdallas.edu/studentaccess
Student AccessAbility ensures that qualified students with documented disabilities have an equal opportunity to participate in educational, recreational and social opportunities at UT Dallas. The office is committed to providing equal access for qualified students with disabilities to all University courses and programs.

Health Services
utdallas.edu/healthcenter
The Student Health Center provides quality care for acute and stabilized chronic illnesses, minor injuries, women’s care, allergy injections, pharmacy services, onsite radiology services and preventive health care to all students who are currently enrolled and have paid their tuition and fees for the semester. Care is provided by a staff of licensed, registered and certified professionals. Currently enrolled students are required to pay a medical service fee, which allows them to schedule office visits at no additional cost. Nominal fees may be assessed for medications, lab work, medical supplies and other procedures as needed. Students must pay for these types of services at the time they are provided. Students who have purchased the UT Student Health Insurance Plan (UT SHIP) are not required to make payment at the time they receive services.

University Recreation
utdallas.edu/urec
Students are encouraged to participate in recreational activities to foster healthy lifestyles, sportsmanship, teamwork and leadership. The Activity Center contains a 10,000-square-foot fitness center, four racquetball courts, two squash courts, four basketball courts, a multi-purpose room, a climbing wall and a 25-yard indoor swimming pool. In addition, there are outdoor basketball courts, a cricket field, sand volleyball courts, soccer fields, tennis courts, softball fields and baseball fields. Recreation Center West is an additional facility located near the residence halls.
Student Volunteerism
utdallas.edu/volunteer
The Office of Student Volunteerism (OSV) provides UT Dallas students year-round, on- and off-campus educational volunteer opportunities. No membership is required to participate in any Office of Student Volunteerism activity, but students must register for each event to confirm a volunteer spot. OSV includes, but is not limited to:

- National events and programs: Alternative Spring Break, Earth Week, National Hunger and Homelessness Awareness Week, National Volunteer Week.
- Educational Outreach via service leadership workshops, advocacy and awareness booths, and presentations.
- Environmental Initiatives such as Operation Upcycle, Adopt-a-Highway, Butterfly Flutterby, and Donation Drives.
- Campus-specific events and programs: UT Dallas Community Garden, Viva Volunteer, Volunteer Expo, OSV Student Leadership Program, Freshmen Engaged in Service Together (FEST).
- Recurring Events Program with local nonprofit and community agencies including Breads & Threads, Hearts on Health, Homework Helpers, Pet Pals, and Tech Tutors.
- Special Projects such as Bone Marrow Donor Drive, Scarves for the Homeless, Holiday Helpers, and Hats for Hope.

Monthly recurring opportunities may include group volunteer sessions at an animal shelter, sorting donations at a food pantry, tutoring and mentoring youth, making seasonal arts and crafts, providing assistance to the elderly, and performing environmental conservation projects.

Students seeking additional local volunteer opportunities may search CometCareers and OrgSync.

Transfer Student Services
utdallas.edu/transferservices
The Transfer Student Services Office offers support to new and returning transfer students.

Student Government
utdallas.edu/sg
Student Government ensures that the University focuses on serving the collective interests of the student body and is the official student voice to UT Dallas administration, the UT System Board of Regents and other governmental entities. Student Government seeks to enhance spirit, protect University traditions and support all students in their academic and community-directed endeavors.

Fraternity and Sorority Life
utdallas.edu/gogreek
UT Dallas is home to 25 national Greek fraternities and sororities. These organizations provide students with friendship, guidance and leadership opportunities that last beyond college.

Residential Life
utdallas.edu/reslife
The Office of Residential Life and its student support team of peer advisors are committed to seeing that every campus resident has a comfortable and welcoming environment in which to live and learn.

Comet Spirit
utdallas.edu/spirit
The Comet Spirit Program supports UT Dallas athletic teams by generating crowd enthusiasm and fostering school spirit. The Power Dancers—the official dance team of UT Dallas—perform hip-hop, jazz, pom and other dance styles for varsity basketball games. The UT Dallas Cheerleaders cheer for volleyball and men’s and women’s basketball games. Both groups make numerous appearances at on- and off-campus events.

Student Union and Activities Advisory Board
utdallas.edu/suaab
The Student Union and Activities Advisory Board (SUAAB) offers a variety of events to promote student participation, including the UT Dallas homecoming dance, Casino Night, Springapalooza, movies, comedians, concerts and pep rallies.
Student Media
utdallas.edu/studentmedia

The Mercury publishes biweekly on Mondays throughout the regular academic year. The newspaper offers paid positions for writers, editors, graphic designers and photographers.

Radio UTD, a student-run, Internet-based radio station, features an eclectic and freeform mix of music and talk programming, as well as an online music blog.

UTD TV broadcasts news, entertainment and other online media content produced by students.

AMP, the University’s student opinion magazine, prints monthly throughout the academic year. The magazine provides a mix of humorous and poignant commentary on social, political and pop culture topics.

New Student Programs
utdallas.edu/newstudentprograms

New Student Programs offers orientations, programs, advice and peer support to give new students a strong start in their University career and helps keep them fully informed and confident about what to expect during their time at UT Dallas.

Housing
utdallas.edu/housing

Living on campus can be a perfect way to transition to college life. It offers students greater freedom and more responsibility in a fun environment that helps them discover more about themselves and make friends in the process.

University Village, University Commons and Canyon Creek Heights offer students the convenience and comforts of home, within walking distance of class.

Freshmen who choose to live on campus are required to reside in one of the University Commons residence halls.

The halls feature three-bedroom, single-bath suites. The furnished suites include a shared entry, a living area with built-in counters and an alcove for students to place a small refrigerator. The suites also have a shared bathroom with a private shower and toilet, and a vanity with three sinks. In addition, the residence halls have large, open communal spaces and numerous study areas.

UT Dallas also offers incoming freshmen the opportunity to participate in Living Learning Communities (LLC). LLCs are groups of students who share common academic goals. Students involved in these groups will live in an LLC housing community, have the opportunity to enroll in classes together, interact with faculty and participate in group activities, such as service projects and social events. Current LLCs include Arts and Technology, Computer Science, Engineering, Exploration (for undeclared majors), First Generation, Management, Pre-Health, Social Sciences. The Women in STEAM LLC is currently available to students after their freshman year. Visit utdallas.edu/livinglearning for more information.

As part of on-campus housing, Residential Life offers programs designed to provide a sense of community for its residents. On move-in day, peer advisors (PA) help students meet neighbors, get involved and acclimate to campus. PAs are student leaders whose responsibilities include programming, mediating roommate conflicts, providing on-call coverage and an after-hours presence in the community. The University welcomes students of all gender identities and expressions and is committed to providing an equitable and inclusive community for all residents. Please contact Residential Life to learn about all available housing options.

For details about how to apply for incoming freshman housing, see utdallas.edu/housing or contact Residential Life at 972-883-7430 or reslife@utdallas.edu.

For sophomores, juniors, seniors and graduate students, housing is available in the University Commons residence halls, University Village or Canyon Creek Heights apartments.

Dining
utdallas.edu/dining

All students living in University Commons are required to purchase a University meal plan.

Dining Hall West, conveniently located in close proximity to the residence halls, is a 69,000-square-foot dining space featuring several action cooking stations and healthy options for students, faculty and staff to mingle, relax and dine. Also housed in this facility—and open late—is Papa John’s pizza and a convenience store. All are open seven days a week during the fall and spring semesters.

Students not required to participate in the meal plan program can choose to purchase one of a variety of optional meal plans. Meal plans offer all variety, value and flexibility for use in any of the many food venues on campus.
University Commons Residence Halls
Below is a sample floor plan. Layout and dimensions may vary. For more information visit utdallas.edu/housing.

Sample Suite Plan

University Village Apartments
There are a mix of apartment floor plans available, from one- to four-bedrooms, ranging from 384 to 1,269 square feet. Below are sample floor plans. Layouts and dimensions may vary. For more information visit utdallas.edu/housing.

Four Bedroom

One Bedroom

Two Bedroom
Canyon Creek Heights Apartments

There are a mix of apartment floor plans available, from one- to four-bedrooms, ranging from 416 to 886 square feet. Below are sample floor plans. Layouts and dimensions may vary. For more information visit utdallas.edu/housing.
Student Organizations
udallas.edu/soc/explore

There are more than 300 student organizations at UT Dallas in the following categories:

Academic Interest — Provides support for academic subjects.

Arts/Music/Special Interest — Promotes the enjoyment and performance of art and music or focuses on a specific interest or topic.

Club Sports — Promotes and develop common sports or recreation-related interests.

Cultural — Provides support for students of various ethnic groups during their academic careers and promote cultural understanding.

Departmental — Promotes the attainment of academic and professional excellence and establish a liaison between a particular school and the University.

Greek — Fraternities and sororities.

Honor — Intended for students who are pursuing a particular field of study or who demonstrate a high level of academic achievement.

Political — Provides a means for students to support political issues, political parties and candidates seeking office.

Religious — Provides a means for students of a particular denomination or religious affiliation to interact with others.

Service — Provides volunteers for on- and off-campus service projects.

Diversity and Community Engagement
utdallas.edu/diversity

The Office of Diversity and Community Engagement seeks to attract, retain and engage an array of talented people to all levels of the University. It focuses on preparing students to live and work in a diverse global society and to appreciate and celebrate the richness of various cultures.

The office helps to create a culture that fosters inclusiveness and opportunity. Its promotion of faculty diversity, institutional initiatives and community engagement, as well as programs and services offered through two centers, benefits the University and the greater community.

Community Engagement
utdallas.edu/community

The Office of Community Engagement provides SAT preparation classes, mentoring to high school students, college tours and hands-on assistance with admissions and financial aid applications for underrepresented minority students. This office also manages the Diversity Scholarship Program, targeting students with a proven record of academic excellence and demonstrated financial need.

Galerstein Gender Center
utdallas.edu/gendercenter

Services and events initiated by the Galerstein Gender Center increase awareness of gender issues and advocate for an inclusive, safe and diverse environment. As part of its services, the center plans programs to increase campus awareness around lesbian, gay, bisexual and transgender issues at the University through programming and support services. The center also provides professional, confidential counseling, as well as guidance, support, advisement and resource referral for students, faculty and staff.

Multicultural Center
utdallas.edu/multicultural

The Multicultural Center provides a variety of quality cultural programs, educational resources, leadership opportunities and support services. Staffed by full-time professionals and student workers, the center offers a comfortably furnished lounge area for organizational and group meetings.

The Office of Title IX Initiatives
utdallas.edu/titleix

The Office of Title IX Initiatives supports the University’s commitment to maintaining a learning and working environment free from discrimination and harassment on the basis of sex. The Office of Title IX Initiatives oversees training, education and outreach initiatives and investigates complaints of sex-based discrimination and sexual misconduct, including sexual harassment, sexual assault, stalking, domestic violence and dating violence.
Registrar

Registrar

Registrar oversees student registration and maintains academic records, including: changes of grades, majors, enrollment verifications, transcript requests, transfer work equivalency and degree conferrals.

The Office of the Registrar provides information about graduation and diploma-related services, Texas residency and commonly used academic forms.

Establishing Texas Residency

Under Texas state law, an applicant or enrolled student is classified as a resident of Texas, a nonresident or a foreign student. Residency, for admission and tuition purposes at a public college or university in Texas, is different from residency for voting or taxation purposes.

To qualify for Texas resident tuition, an individual must establish residence in Texas at least 12 months prior to census day of the term they will begin attendance, and reside in Texas for those 12 continuous months.

International students eligible to establish legal residency in Texas also may qualify for Texas residency status; see utdallas.edu/registrar/residency for details. If students are classified as a nonresident and feel they meet residency requirements, they may petition for reclassification by completing the Residency Core Questions online before the census day for the term they will begin attendance. For further questions, please email residency@utdallas.edu.

Due to the changing nature of residency requirements, please review any updates or changes on the Texas Higher Education Coordinating Board website at www.collegeforalltexans.com.

UT Dallas does not discriminate on the basis of race, color, religion, sex (including pregnancy), sexual orientation, gender identity, gender expression, age, national origin, disability, genetic information, or veteran status in its programs and activities, including in admission and enrollment. For inquiries regarding non-discrimination policies, contact the Director of Institutional Equity at InstitutionalEquity@utdallas.edu or the Title IX Coordinator at TitleIXCoordinator@utdallas.edu, or call 972-883-5331.
Visit UT Dallas

Campus Tours
Hosted walking tours of campus are offered each weekday, except University holidays, at 10 a.m. and 2 p.m. Tours last approximately one hour and include highlights of the University’s academic programs, student life activities, new buildings and campus dining and housing options. Housing tours are offered each weekday at noon and 12:30 p.m. beginning at Residence Hall West. High school groups may preregister for custom tours. To schedule a visit, go to utdallas.edu/tours. You can also view our virtual tour at utdallas.edu/virtualtour.

Prospective Student Events

Discover UT Dallas
Discover UT Dallas is hosted in several major cities across Texas to provide an introductory look into the academic and social opportunities for students at UT Dallas. This event is specifically designed for high school students, parents and community college students and is held throughout September and October.

Scholars’ Day
Scholars’ Day at UT Dallas is a premier open house event designed to showcase the University to prospective students and their families. At this event, guests are invited to tour the UT Dallas campus, attend academic and student life sessions led by UT Dallas faculty and staff members and meet current students involved in student organizations. High school seniors and community college students who attend the program can receive an application fee waiver for the upcoming academic year. This event is held in the fall semester.

Preview Friday
Preview Friday is hosted at UT Dallas and is designed for current and former college students interested in transferring into UT Dallas. Guests receive detailed information about the transfer admission process, transfer credit, scholarships, financial aid and campus life. Students and family members also may attend an academic presentation given by their academic department of choice. Transfer students who attend Preview Friday may be eligible for a $50 application fee waiver for the next long semester.

Comet Sneak Peek
Comet Sneak Peek introduces high school juniors, seniors and their families to UT Dallas. The event takes place in the spring semester and gives guests a chance to learn about the University through campus and housing tours, staff presentations and an opportunity to interact with current UT Dallas students.

For more information or to register for an event, visit: utdallas.edu/enroll/events.
