10) Suggestions:
   a. **2018-021s**: I suggest a survey of the on/off ramps for the sidewalks be done to ensure the transitions are safe for wheelchair users. I witnessed an individual in a motorized wheelchair fall out of his chair on the northeast corner of the Rutford Ave/Loop Rd as he attempted to get up the ramp and onto the flat sidewalk. There the flat sidewalk is a good inch higher than the ramp portion and he no doubt hit that. It took 3 people to get him back in his chair. This is not acceptable.
   b. **2018-022s**: There is no easy way to say this but one hour for the Staff Appreciation Celebration is not enough. It may be difficult for some staff to make it during such a short period of time. Some departments have to let people go a few at a time in order to keep things running. Maybe you have other reasons for setting it for such a short period but I thought I would mention it since we only get one a year and a few of my staff members have already complained.
   c. **2018-023s**: UTD does not have a plan for what to do in the event of an active shooter on campus. Can Staff Council please investigate? Is Dr. Benson aware of this? (ANON)
   d. **2018-024s**: The water heaters installed in the past year in University Village are very noisy, it is high frequency noise, not white noise, so they are very annoying especially in evening, make you can't study or even think. I doubt why did UV staff bought this poor quality product? Do they just want to spend less money or did anyone get kickback? I strongly suggest you to replace those water heater with quiet ones, I have been living here for a few years, there was no such noise before they installed the new water heaters.
