TEA-TAKS (prior to 2008).....	162
TEA-TAKS (2008).....	184

DESCRIPTION

- The synthetic data files were created based on the 2008 ERC-PEIMS and 2007, 2008 ERC-TAKS data files.
- The key variables (pidrep, ssnrep, district, campus) are consistent across different datasets.
- The ERC has two types of Attendance data.
 - A unique combination of district and student.
 - A unique combination of campus, enrollment, student, grade, six-week reporting period, and instructional track.
- The number of elements/variables within datasets may be slightly different across years.
- This document will be updated when new variable(s) are added.
- The synthetic data files include:

PEIMS:

- Student—Attendance, Demographic graduate, Graduate, Discipline action, Course complete, Dropout, Enrollment, Leaver (other exit), Special education.
- Staff—Employ, Class, Non-class.
- Financial – Actual, Non-Profit actual, Budget, Non-Profit budget.
- Organization – District, Campus.

Note: synthetic-PEIMS data include all the variables across different PEIMS datasets and years.

TAKS:

Note: synthetic-TAKS data include all the variables in the TAKS data files across different grades and years.

- *Prior to 2008, there were approximately 210 variables in the TAKS datasets.*
- *In 2008, there were approximately 240 variables added to the TAKS datasets for a total of approximately 450 variables in the '08 TAKS datasets.*
